

ROAD CONSTRUCTION COMPANY ELIMINATES DETOURS TO JOB COST REPORTING

Linda Hall knows construction accounting. As the office manager for Ordaz Construction, she switches hats between Accounts Payable, Accounts Receivable, Payroll, General Ledger and Job Costing on a daily basis.

Linda Hall also knows software. Prior to purchasing ComputerEase in

Linda Hall, Ordaz Construction

2008, Ordaz was using a custom built program — which Linda programmed from scratch! So why would they switch?

“We just didn’t feel like we were getting enough info to make good business decisions. And our custom program wasn’t as well integrated as this system. In ComputerEase we can access anything from the same screen; it’s really nice.

When we saw ComputerEase, we knew it was exactly what we were looking for. It’s easy for my boss to get the information she needs without having to ask me. She’s very happy with the reports; she can check our cash flow and tell at a glance if a job is making money or not.

“Our biggest benefit from ComputerEase is that we can get up-to-the minute, accurate job reports,” says Linda. “I can quickly get my payables, payroll and other job costs in, and a couple of clicks later I’ll know if a job is making money or not — and all on one screen. Before, I only had good numbers at month end.”

Since Ordaz is a road and heavy highway construction contractor, we mainly deal with projects for the State. As a side benefit, using ComputerEase has made it easier to issue invoices and report on where we’re at with their jobs. It gives us the appearance of a much more professional and efficient company.

“Our biggest benefit from ComputerEase is that we can get up-to-the minute, accurate job reports .

I can quickly get my payables, payroll and other job costs entered, and a couple of clicks later I’ll know if a job is making money or not — and all on one screen.

Before, I only had good numbers at month end.”

ACCURACY, RELIABILITY & EASE OF USE

I would recommend ComputerEase to anyone in our industry. I’ve worked with computers and software for a long time and can testify to its reliability, accuracy and ease of use.

For me personally, the simplicity of ComputerEase has helped to cut down my workload. And I’m absolutely confident that my numbers are correct. My month-ends and year-ends always
